### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: the claims are allowable over prior art BLONDEAU et al (5,262,656), because Blondeau et al. fails to disclose an on-chip optical interconnection circuit having a first element having a light emitting function provided on a first circuit block, and a second element having a light receiving function provided on a second circuit block, as recited in independent claim 18. The Blondeau discloses a first element having a light emitting function ("laser") provided on a first circuit block ("L"), and a second element having a light receiving function ("detector") provided on a second circuit block ("DEC"). However, Blondeau discloses that "DEC" and "detector" are the same thing, and that "L" and "laser" are the same thing. See Blondeau at column 2 lines 59-62.

Therefore, the rejection claims 18, 20-21, 25-26 and 32-33 under *35 USC § 102* (b) is withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
